日本統計年鑑（第一回）

序

從來わが國の総合的年次官府統計書であつた内閣統計局編集の『大日本帝國統計年鑑』は、明治十五年創刊以來五十九回を重ねたが、昭和十六年太平洋戦争のため昭和十五年分を最後にその刊行を停止した。戦後中央、地方を通ずる官廳統計機構が漸次改善整備されるにおよんで、内外および公私の各方面からこの種総合的統計年鑑の復刊が要望されるに至つた。

統計委員会事務局は關係各統計機關との数次にわたる協議の結果、新構想による『日本統計年鑑』編集の成案を得たので、総理廳統計局がその実施に當ることになつた。それ以來總理廳統計局は右の企画に基き同局研究部資料課の主力をあててその編集に着手したが、所要資料の缺如、散逸、不備等のために当初計画の変更を余儀なくされた部門も二三に止まらず、作業の進行は必ずしも容易ではなかつた。しかしその間、公私各統計機關の積極的協力、ならびに編集關係者の不屈な努力の結果、ここに漸くその公刊を見るに至つたのである。

当初、計画の眼目は年鑑刊行停止八年間の資料的空白をみたすとともに、戦後わが國勢の総合的鳥かん図を興えることにあつたが、この第一回年鑑が所期の目的を果しえたか否かについては顧みて遺憾の点なしとしない。例えば資本形成、國民所得、各種災害等の分野については基本的資料の不備、取集上の不便等もあつて、年鑑体系上大きな缺陷を残す結果となつた。又特に全編英文の対訳は種々の關係から万全を期することができなかつた。その他各種の不備、誤びゆう等とともに各方面からのしつ正を得て今後の改善に備えたい。

おわりにのぞんで資料提供に關し格別の協力を興えられた諸統計機關、ならびに困難な編集、組版作業に不斷の努力を示された關係者各位に対して深く謝意を表す。

Preface

"The Statistical Year-book of the Empire of Japan," which had been compiled by the Cabinet Bureau of Statistics since 1882 as the unique annual report of over-all official statistics in Japan, was obliged to stop its publication in 1941 due to the Pacific War; the last issue being 59th. The reappearance of a synthetic statistical publication of this sort, however, has strongly been desired from the public here and abroad, as the statistical organizations, central and local, of this country are being rearranged and improved after the war.

The Executive Office of the Statistics Commission had several meetings with various statistical agencies concerned and obtained a new plan of compilation of the "Japan Statistical Year-book," on the basis of which the Statistics Bureau of the Prime Minister's Office was appointed to take charge of putting the work into effect. Since then, the Editing Section of the Bureau has endeavoured to carry the plan out amidst many difficulties. It is admitted that not a few parts of the original plan suffered substantial changes due to the disorder and lack of the necessary materials. In spite of that the work is at last done, greatly favoured with positive co-operation by various statistical agencies and inflexible efforts of the editing staffs.

The main idea in editing was to fulfil the blank of eight years suspension of the publication of the year-book and, at the same time, to give an over-all statistical bird's-eye view of the post-war Japan. But it is regrettable to say that this first issue is not necessarily successful; for example, such segments as the capital formation, national income, various accidents and damages etc. left not a little defects on the system of a statistical year-book owing to the lack of basic figures as well as the difficulties in collecting data. Another type of incompleteness is seen in the English translation throughout the work. These and other defects and mistakes, if any, shall be amended and improved hereafter by kind indications from the readers in every quarter.

Acknowledgments and thanks are made to the various statistical agencies for their hearty cooperations with us and to those persons concerned who made constant efforts in the hard works of compilation and type-setting.

例言

1. 本書は戦後第一回の総合統計年鑑として戦時中ならびに戦後のわが國政治、經濟、文化等國勢全般にわたる統計資料を集録した。
2. できるだけ長期間にわたる資料を採用する事を原則とし府縣別統計を縮少した。又戦前比較のため昭和5年および11年を重視したが、細部の数字採録は終戦後にとどめ、変動の特に激しい經濟統計および季節変動の著しいものに限つて月別を採用した。
3. 内容の重点はこれを經濟統計におき、經濟各部門間の関連性をあらわすようにつとめた。
4. 統計表の配列上数章に共通する内容はこれを主な章におさめ他の章では表題のみを掲げた。
5. 資料収集の範圍は官公機關に限らず、重要資料については廣く民間團體にもこれを求めた。又すでに停止された調査であつても年鑑体系上重要なものはこれを集録した。
6. 資料の出所は公刊資料の不十分な今日、各機關保有の原表から収集したもの、各機關に新たに集計を依頼したもの、或は本局において集計を行つたものも少くないので主務官廳又は調査機關名のみを掲げることにした。
7. 本書中の英訳は原則として各原機關において使用したものをういたが、編集者において新たにほん訳したところも少くない。
8. 統計表の一般的説明は脚註に入れ、表中説明を要する個々の事項は特に番号を附した。
その対照番号は表頭表側については a), b), c), 数表については 1), 2), 3), とし数頁にわたる表については最初の頁、或は最終頁に一括した。
調査の方法に関する説明の必要な場合はこれを表題の下に入れた。
9. 單位は現在の慣習と將來の利用とを考慮してできるだけ統一するように努力した。
10. 数字の單位以下は四捨五入を原則とし、これによらぬときは註記した。従つて総数と内容の計とは必ずしも一致しないことがある。
11. 年次とは曆年をいい、年度とは會計年度を示す。米穀年度營業年度等の場合はその都度その内容を示しておいた。
12. 符号の用法は次の通りである。

0 單位未滿。 — 皆無又は該当数字なし。
... 不詳。 * 推計又は暫定数字。

Remarks

1. This first post-war issue of the Japan Statistical Year-book offers an over-all collection of statistical data on the political, economic and other national conditions of the war-time as well as post-war Japan.
2. It contains on principle the historical series as long as possible, while abridging the figures by prefectures whenever possible. Stresses are put on 1930 and 1936 data for the convenience of comparison of the post-war data with the pre-war period, but detailed representations are in general limited to the post-war period; figures on the monthly basis are given only for economic statistics and other series showing conspicuous seasonal variations.
3. Emphasis of compilation is laid on economic statistics, especially on the representation of those data which reflect the interdependence between various segments of economic activities.
4. Date common to two or more chapters are placed in the one that mainly matters, only their titles being indicated in the other chapters concerned.
5. Data are collected not only from official and public agencies, important materials come also from private agencies in wide. Moreover, results are given of those surveys that are not current, but still hold relevant for the system of a year-book.
6. Instead of the names of the original publications, the offices or agencies only are referred to, since most of the data presented here were either collected from the unprinted sources or acquired by newly-made calculations on the side of the respective offices or of this Bureau,—a circumstance unavoidable in these crude post-war years.
7. Most of the English translations of technical terms are what the original agencies prefer to use, but some are newly translated by the compiler.
8. General remarks of each statistical table are given in the foot-note, and individual items in the table are explained, if necessary, in the note bearing reference numbers: a), b), c),.....are used for the headings of the table and 1), 2), 3),.....for the statistical figures. Notes common to several pages are given on the first or the last page concerned only. Explanations, if any, of statistical surveys are found right under the titles.
9. The standardization of each metrical unit used in this book is tried as far as possible, taking the present and future usages in consideration.
10. It is a rule to cut statistical figures short by counting fractions of 5 and over as a unit and disregarding the rest. Special mentions are made when otherwise practised.
Therefore the total figure often differs from the sum of the content figures.
11. Fiscal years, crop years, and business years and identified in respective cases. What is simply expressed as "year" means "calender year."
12. Marks used are:

(0) showing figures not large enough to attain a unit, (—) zero or no figures available, (...) figures unknown here and (*) estimates or preliminary figures.
