序

日本統計年鑑はわが国経済・文化の全分野に関する統計資料を総合的に収録して国民の日用の便に資するために刊行するものであつて、明治15年から昭和16年までの間に59回の刊行をみた日本帝国統計年鑑の伝統を継ぐものであり、今回は第5次の刊行である。

本書は本局の調査部研究課において編集したものであるが、今回の編集においては、新たに統計図表を収録して利用の便を図つたほか、若干の統計表の取捨と様式変更を行つたが、それ以外はほぼ前回の方針を踏襲した。編集に当つて資料の提供に協力された関係諸機関の好意に対し、記して深く謝意を表する次第である。

Preface

The present Japan Statistical Yearbook is the fifth edition published since the War. It inherits the tradition founded by the Japanese Imperial Statistical Yearbook which issued 59 editions between 1882 and 1941. The primary aim of the publication is to serve as a daily reference for the general public, presenting in a single volume overall statistics on the economic and cultural situations of Japan.

The present edition is compiled by the Research Section, Survey Division, of this Bureau. In this issue the new introduction of charts and some changes in tables and their form have been effected in order to facilitate the use, but, except these, the plan largely followed that of the previous edition.

We hereby acknowledge and tender thanks to the agencies for their contribution of valuable data and for their hearty cooperation with us.

Explanatory notes

1. This publication is a compilation of the important and basic data covering the entire field of economy and culture of Japan.
2. The data are compiled mostly from official statistics, but some private data are also made use of if valuable.
3. The data are first obtained from those officially published by various agencies; others, having no official data to rely upon, are based on the original tables.
4. The coverage of the data is, on principle, from 1930 to 1952 (or 1952 fiscal year). But from the viewpoint of the availability or unavailability of data, their importance and technical reasons for printing, it has been conveniently lengthened or shortened for some items.
5. The source of the data is stated in each table. In case more detailed data are necessary, or some doubts are entertained of our data, inquiry should be made directly of the source or of the Yearbook Unit, Research Section, of this Bureau.
6. The general arrangement of chapters followed that of the Fourth Edition of Japan Statistical Yearbook.
7. The kind and form of tables followed those of the Fourth Edition, though some are newly adopted, while others are abandoned or changed of form for various reasons.
8. Some statistical charts are newly introduced into the book, with numbers for related tables in the foot notes of the charts to serve the purpose of comparison.
9. The names of the countries of the world in the tables of international statistics followed the alphabetical order. The disagreements occurring between the figures related to Japan in the international statistical tables and those in other chapters are not adjusted.
10. As a rule, we have followed the English technical terms used by the original agencies but some terms are translated by the compilers.
11. As to fractions below unit, 5 and higher fractions are rounded up to the unit numbers, disregarding the rest. Consequently, there may be instances where figures will not add up to totals.
12. "Year" denotes calendar year unless otherwise stated. "Fiscal year" refers to 12 months beginning April 1 of the year stated.
13. The use of signs is as follows:
 - 0 ……below unit
 - …… no available figures
 - … ……unknown or unreported
